

## NIDAM NEWS LETTER BRIEFS

Fall Meeting

The fall meeting will be held on Sunday September 27. Time is 2:00 P.M. in the youth building at the CVARC Hamfest. See the enclosed flyer. Major business will be the election of club officers for next year.

DX Want list

It's time to upissue the May 27 edition. Please mail, phone, or bring your updates to N4RR before Sept. 30

Contest Season

Time to get your antennas up and the dust off the finals in preparation for CQWW, SS and lowband DXing. Sounds like many of the club members have upgraded during the summer. WØWF has a new TH6DXX at 60 feet. You think that he was hard to beat before! KØJSY is putting up 2 towers (90 and 60 feet) with monobanders for all bands. A multi-single effort is being planned for CQWW phone. AKØM has a 3 element 20 meter monobander and a duo 10-15 above. Now if it will stand up this winter. KBØV has a new T&T 5 element tribander up 50 feet and likes the performance real well. KBØFP now has his 3 element 40 meter Telrex and 4 element 20 meter telrex beams above 100 feet. Tom has gear box problems to resolve before all is operational. Tom also has a new Kenwood remote VFO to go with his TS-830. KØGT is now working at you guessed it, Collins. KØIUZ is back on the air, but not on the 2 meter subbands yet. I hate to tell him how many he has missed!

ARRL NATIONAL

Work is progressing on the committee headed by el presidente WØEJ. An update will be presented at the meeting.

ONE BROWNING-H48PD  
P.O. DRAWER DX  
CORDOVA, SC 29039

August 19, 1981

Mr. Dewey L. Treanor, K9SVX  
Eastern Iowa DX Association  
Collins Avionics Division  
400 Collins Road  
Cedar Rapids, Iowa 52406

Dear Dewey: *Dewey Tell Du please to get them myz ready -*

I am now calling on your Club for a possible donation for my EXPEDITION!  
THE TIME HAS NOW ARRIVED! A K9J and I have purchased an (O'Day 32), a 37 foot  
sea going yacht. It is docked at a marina in Beaufort, SC and a few final items are  
being installed. Such as a Satellite Navigation unit, an automatic pilot, radio gear  
for /M work when we are between stops on an around the world Expedition, Radio Direct-  
ional Finder, Ship to shore radio and a few other similar items.

We plan to start the Expedition around the first of November (as soon as hurricane  
threats are over). Plans are to COMPLETELY COVER the Caribbean Sea, going to every  
prefix we can obtain a license to operate from, then the Panama Canal to the Pacific  
where we probably will spend a few years going to as many islands as possible in a  
small ship. Next will be the Indian Ocean, Persian Gulf Area, the Red Sea Area and  
then the Suez Canal to the Mediterranean Sea and its islands, finally the Atlantic  
Ocean, both North and South Atlantic and back home. If things go well and look good we  
could conceivably start the trip over again after a brief visit with the children and  
grandchildren and of course having the boat checked over before starting over again.  
Your guess would be as good as mine as far as the length of this Expedition, perhaps  
five years, more or less.

We would like to again put some fun and good spirits into the game of DXing, like  
in the "good ole days", back in the sixties. We will be using all bands 10 thru 160  
inclusive, both CW and SSB. The most needed mode used as the demands exist. Possibly  
later we might use some Satellite QSO's! But that would be some time in the future.  
We would work General, Advanced, Extra Class and at times Novices. I would use split  
frequency operation by far most of the time, with a LIVE transceiver operation when the  
going is on the slow side. Only three people will be on the trip, my XYL-Peggy, the K9J  
(who at this time does not want to be identified) and myself. This will be a SSB DX-  
pedition, our speed of going from one place to the next would be decided by the weather.  
We will be weather watchers, as we all want to arrive back home someday safely. We will  
not be hurried.

We will QSL 100% directly from the logs, direct in some cases when possible when  
arrangements are made with the station we worked (you understand what I mean don't you?)  
All our health shots, passports and applications are in now for over 25 DX spots licenses.

Oh YES! The DXES Magazine is still being published (at our 1968 prices) and I still  
print QSL cards, this will continue by our DX, and his XYL while we are gone and I will  
be getting a little off the top for every print job, so please keep me in mind when you  
need printing done. Of course the DXES Magazine will carry first hand information on  
our Expedition, so if you're not a subscriber, perhaps you would like to get your  
subscription order in so your name will be on the mailing list.

- page 2 -

A venture like this will take money to keep us going. When you land at islands  
you have hotel cost of something similar to stay at, eating, licenses cost quite a bit  
at many places, port entrances and departures and at times we may need something done on  
the boat. While at sea the cost is down, the wind will get us from point "A" to point  
"B", when you dock that's when the cost goes up and that's where we want to be covered.  
Don't send anything you cannot afford, but the more the better. It's hard to be away  
from home when the money starts to get real low. The boat is paid for as well as every-  
thing there on the boat. The money I need will be spent overseas and a little in getting  
wind stops blooded (which happens here and there they call this the doldrums). We WANT  
THE WIND!

We have many Ocean Passage Charters (as they are called), world-wide weather charts  
and graphs. I have been practicing the use of a sextant for the past six months if its  
ever needed. We NOW we are facing a very BIG CHARGE in undertaking this trip. I have  
been wanting to write this kind of letter for a long time and the TIME has finally come.  
PLEASE do what you can and I would like the contribution to come as soon as possible.  
Of course in the event that something unforeseen turns up to stop the trip, we will refund  
100% of all contributions/donations.

I promise you there will not be any of this "last" type of operation (we want to run  
our own show!), there will NOT be any favorite areas, there will be no favorite type of  
operations (SSB/CW, etc.). I will work EVERYONE WE HEAR. I will accept call-orders (but  
let me at least get my signal report in other words, anyway you can get into my log is  
OK with me and I won't get mad at anyone, under any circumstances. If anyone makes a  
complete joke of themselves their call might not get in my log even if I work them and  
that's about as mean as I will ever be. Most of you know me, many personally and you  
know I am fair in all my dealings. None of the trip dinks or munks (I GOT 7 years ago).  
We all know how to live cheap and how to get along with people of any color, race or  
religious background.

That about covers it from here - at 16¢ per letter I cannot afford to write too many  
either! hi. How about it CW or VLF? Our time is very short now.

Wanna work my "ZL90" in 73 and hope to be on the more REAL SOON!  
I want 2 CW's! - 24 w/out to any! do, you WARD Doc B MW

P.S. Our boat is named "DX" and registered in Cordova, S.C. 1 de-lyue-B PD

## Announcing:

# The 1981 CQ World-Wide DX Contest

Phone: October 24-25 & C.W.: November 28-29  
Starts 0000 GMT Sat. Ends 2400 GMT Sunday

**I. OBJECTIVE:** For amateurs around the world to contact other amateurs in as many zones and countries as possible.

**II. BANDS:** All bands, 1.8 through 28 MHz.

**III. TYPE OF COMPETITION:**

1. Single Operator (Single band, and all bands). Single operator stations are those at which one person performs all of the operating, logging, and spotting functions. The use of DX spotting nets or any other form of DX alerting assistance places the station in the Multi-Operator category.

2. Multi-Operator (all band operation only).  
a. Single Transmitter, only one transmitter and one band permitted during the same time period (defined as 10 minutes). Exception: One—and only one—other band may be used during the same time period if—and only if—the station worked is a new multiplier. Logs found in violation of the ten-minute rule will be automatically reclassified as multi-multi to reflect their actual status.  
b. Multi Transmitter (no limit to transmitters but only one signal per band permitted).  
c. All transmitters must be located within a 500 meter diameter or within the property limits of the station licensee's address, whichever is greater. The antennas must be physically connected by wires to the transmitter.

3. DXPP (single operator only) Power must not exceed 5 watts output. Stations in this category will be competing with other DXPP stations for awards.  
4. **NO POWER EXCHANGE:** Phone, CW, Morse, or any other form of communication is prohibited between stations on different continents are worth three (3) points.

5. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

6. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

7. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

8. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

9. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

10. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

2. Contacts between stations on the same continent but different countries, one (1) point. Exception: For North American stations only, contacts between stations within the North American boundaries count two (2) points.

3. Contacts between stations in the same country are permitted for zone or country multiplier credit but have zero (0) point value.

4. **SCORING:** All stations: the final score is the result of the total QSO points multiplied by the sum of your zone and country multiplier.

Example: 1000 QSO points x 100 multiplier (30 Zones + 70 Countries) = 100,000 final score.

5. **AWARDS:** First place certificates will be awarded in each category listed under Sec. III in every participating country and in each call area of the United States, Canada, and Asiatic USSR.

All scores will be published. To be eligible for an award, a Single Operator station must show a minimum of 12 hours of operation. Multi-operator stations must operate a minimum of 24 hours. A single-band log is eligible for a single-band award only. If a log contains more than one band it will be judged as an all-band entry, unless specified otherwise.

In countries or call areas where the national justice, 2nd and 3rd place awards will be made.

All certificates and plaques will be issued to the licensee of the station log.

1. **PLAQUES & PLACES AWARDS:** PHONE, Morse, CW, or any other form of communication is prohibited between stations on different continents are worth three (3) points.

2. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

3. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

4. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

5. **NO LOGGING IN A ZONE OR COUNTRY DIFFERENT FROM THAT IN WHICH THE STATION IS LOCATED:** Stations logging in a zone or country different from that in which the station is located will be disqualified.

World - Multi-Op. - Bill Schneider, K2TT

Chile

Trophy winners may win the same trophy only within a three year period. (This does not apply to any club or CD Special Awards.)  
A station winning a World Trophy will not be considered for a sub-area award. That Trophy will be awarded to the runner-up of that area.

The Canadian, Carib. J.A., and the African awards are for residents only. A resident is defined as one living in that country with an established Post Office address.

## X. CLUB COMPETITION:

1. The club must be a local group and not a national organization.

2. Participation is limited to members operating within a local geographic area (except for DXpeditions especially organized for operation in the contest and manned by members).

3. To be listed, a minimum of 3 logs must be received from a club and an officer of the club must submit a list of participating members and their scores, both on phone and C.W.

## XI. LOG INSTRUCTIONS:

1. All times must be in GMT.

2. Indicate zone and country multiplier only the FIRST TIME it is worked on each band.

3. Logs must be checked for duplicate contacts, correct QSO points and multipliers. Submitted logs must have duplicate contacts clearly shown. The original log may be requested by the Contest Committee if further checking of the log is necessary.

4. Use a separate sheet for each band.

5. Each entry must be accompanied by a Summary sheet showing affecting information, category of competition, contestant's name and address in BLOCK LETTERS and a signed declaration that all contest rules and regulations for amateur radio in the country of operation have been observed.

6. Sample log and summary sheets and zone maps are available from CQ. A large self-addressed envelope with sufficient postage or IRC's must accompany your request.

If official forms are not available, make up your own 80 contacts to the page on 8 1/2" x 11" paper.

7. All entrants are required to submit cross-check sheets for each band on which 200 or more QSO's were made. All other entrants are encouraged to submit cross-check sheets.

8. For each duplicate contact that is removed from a log by the committee, a penalty of three additional contacts will be assessed.

9. DRPP stations must indicate same on their summary sheets and state the actual maximum power output used, with a signed declaration.

XII. DISQUALIFICATION: Violation of amateur radio regulations in the country of the contestant, or the rules of the contest, unprofessional conduct, taking credit for excessive duplicate contacts, unreliable QSO's, or unreliable multipliers will be deemed sufficient cause for disqualification. (Incorrectly logged calls will be counted as unreliable contacts.)

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.

Disqualification can also result in the disqualified operator being barred from participation in all CQ contests.
